

Robert D. Milne, M.D.

Board Certified Family Practice
Allergy • Integrative Medicine
Medical Acupuncture

Thank you for visiting our website and your interest in Milne Medical Center. We will be happy to review your medical condition and offer suggestions or options for integrative medical treatment. Once you make an appointment, please download the various Patient Forms and complete them prior to your visit. Please bring the forms to your appointment. **DO NOT MAIL** them to our office. If you have any questions, please contact my staff for assistance.

To optimize your patient visit, here are some important suggestions:

- *Please bring, or make available, copies of medical records that pertain to your medical condition.
- *If you have not had blood tests done in the past 6 months, we may perform lab testing in our office, or write a requisition for a local laboratory to perform the tests. Insurance usually covers these expenses.
- *Many of our patients are chemically sensitive. Please **DO NOT WEAR PERFUMES OR COLOGNES** to your appointment.
- *If you are presently taking prescription medications, vitamins, minerals, herbs, or any other supplements, please bring the actual bottles to your appointment.
- *Dr. Milne spends as much time as is necessary with each patient. Due to this extra time spent, he may occasionally run behind for the next patient. Please consider bringing reading material with you, or you may also call ahead for a schedule update.

We look forward to serving your health care needs, and we will do our best to make your visit successful and worthwhile.
